

OS-214EX Battle Card

Product Pitch

The best value entry level desktop printer

OS-214EX is the new generation of OS series printer which is the best-selling printer from Argox for 25 years. With more than two million worldwide users, the OS series are known internationally for their stability and durability. OS-214EX inherits all the advantages of OS-214Plus including matching appearance and form factor, is designed to fulfill entry-level demands today and tomorrow. Compared with OS-214Plus, the OS-214EX runs faster, comes with bigger memory capacity and automatically identifies the ribbon type you are using (ink-in or ink-out). In networked environment, the OS-214EX supports on-board Ethernet interface so it can be well connected on-line. Print module opening angle up to 110° brings conveniences & reduces installation time when loading ribbon & paper. The OS-214EX fits wax, resin, wax-resin types of ribbon for various printing tasks.

Optional Accessories

- Cutter - Separate individual prints or batches of labels and tags.
- Media Stacker - Attach quickly and easily to printer to improve efficiency and increase productivity with fewer roll changes.
- External Rewinder - Automatically rewinding labels from printer for small-run or large-batch labeling applications.

Features & Benefits

- Interface roof feature can avoid interface from water spill damage and keep machine close to wall, reduce operating space.
- On-board emulations compatible with DPL, ZPLII and EPL, auto-detect to switch one to another without downtime. Quick plug and play is ideal for printer replacement. (Auto-Detection & Auto-Conversion).
- Single key Intelli-mode and Smart-mode calibration performs tasks immediately after installation.
- To tear off the label the way you like or as needed, either upward or downward.

Quick Specs

- Print Resolution: 203dpi
- Print Method: T/T & D/T
- Print Speed: up to 6ips
- Maximum Print Width: 4.25"

Common Vertical Applications

- Product Marking, Coupon Printing, and Packing slips
- Shipping / Receiving labeling, Parcel routing, and Cross-docking
- Inventory Control, Document Management, and Asset Management
- Patient Identification, Pharmacy and Product labeling
