

Presenting.... The plus Family

CL4NX **Plus**

CL6NX **Plus**

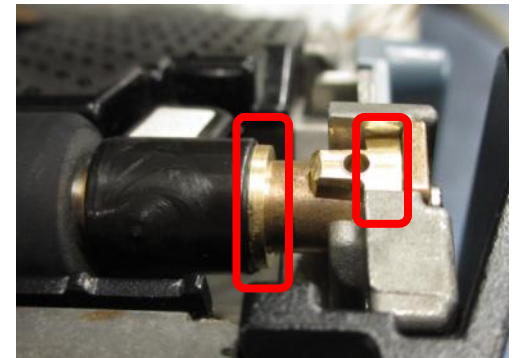

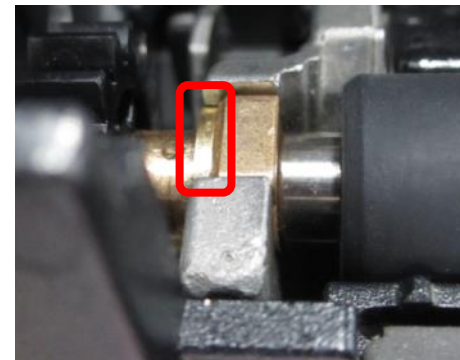

CL6NX **Plus**

- 1- Pure Line Platen roller
- 2- Print Accuracy
- 3- Improved print quality
- 4- Smart Head
- 5- SOS
- 6- SAS support
- 7- SOTI
- 8- PDF Printing

1- Pure Line Platen Roller

- Easier to service
 - “Pure Line”™ Sato original technology. It is a white line on the platen roller.
 - added to platen roller It gives visual indication of wear on the platen roller as a means of proactive maintenance.
 - Lock improvement for easier platen roller replacement
 - This head will fit to current CL6NX

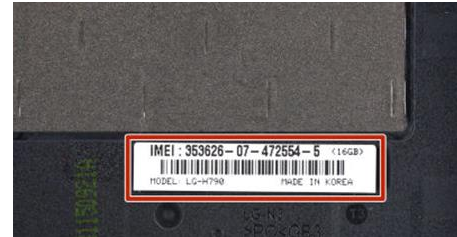

Also available on

CL4NX Plus

2- Micro Label Print Mode

- Precision printing
- Micro Label Print Mode
 - Higher accuracy at the same price!
 - +/- 0.7mm (0.028") in all operation modes

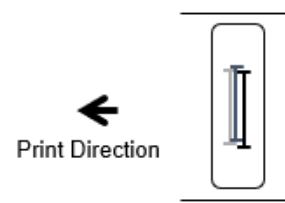

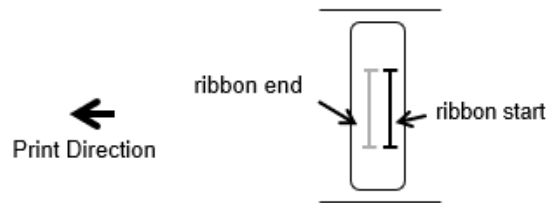

① ribbon start vs end

Compare the print position between "start" and "end" of ribbon/label.

② Print 3 times

Print (overwrite) on the same position 3 times

	CL6NX	CL6NX plus 203dpi and
Tolerance	1.5 (mm and inch)	0.7 (mm and inch)

Also available on

CL4NX Plus

3- New Ribbon and Label Support

- Better print quality and experience
 - New rotating ribbon support shaft to reduce wrinkles and ink build up
 - Ribbon support roller rotates now
 - Media guide enlargement

NEW! Rotating SUPPORT SHAFT

A 20mm dia. rotating support shaft helps reinforce the head unit as well as reducing ribbon drag.

Also available on

CL4NX Plus

4- Smart Head

CL6NX Plus

Improved SOS Integration (SMART HEAD)

- Print head info is stored in the head and can be read via SOS.
- Information such as serial number, printed length, print head damage can be seen via SOS.
- Because serial number is visible, its possible to know whether print head has been changed by the user.
- This head will fit to current CL6NX, but the functionality will not be available!

NOTE:

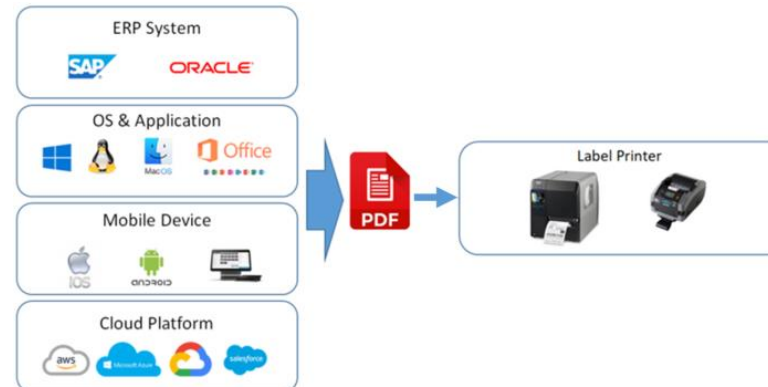

Preventive service maintenance.
Tracking print head life and usage.
Warranty claims can be identified.
Head replacement is detected, and printers head counter shifts automatically.

Growing with CL6NX Plus

CL6NX **Plus**

- ✓ SOS Improvement.
 - ✓ Smart Head
- ✓ SAS (Sato App Storage)
- ✓ SOTI Connect
- ✓ PDF Direct Printing
