WORKS FOR YOU!

BY TTR EUROWORKS

### HOT FOIL FOR HOT STAMPING MACHINES

TTR Euroworks offers high-quality and high performance foils for efficient product labelling. It meets the stringent requirements of modern labelling methods. Hot stamping means a heated printing block applying pressure to the back of a multi layered film based on 12 micron thickness. This action causes the coating to adhere to the product surface defined by the printing plate.

#### General purpose (color: black)

<b>Stamping temp:</b>	120-150 C
<b>Print speed:</b>	High (351-598 labels per minute)
<b>Durability:</b>	High

**Jumbo roll:** 760/960mmx4000 mtr

Slitted rolls also available on a 1 inch core

**Temperatures:** -5 C (23 F) ~ 40 C (104 F)

**Humidity:** 20% ~ 85% RH

Keep out of direct sunlight.

#### Specialty (color: black)

<b>Stamping temp:</b>	110-160 C
<b>Print speed:</b>	High (351-598 labels per minute)
<b>Durability:</b>	Extreme

**Resists to:**

water, abrasion, boiling, freezing, cooking oils

**Fields of application:**

coding of prices / weights / expiration dates / lot numbers, such as pharmaceutical pouces, bags of chips, pack of seeds, confectionary prodcusts, toiletries, frozen foods, beverages etc.
