

WR4U411NE

Near-edge

WR4U 411NE is a premium-quality ribbon for use in near-edge printers and is equally able to print on both labels and flexible packaging.

Given its performance, including speed, sensitivity, versatility and blackness, **WR4U 411NE** is optimally suited to the vast majority of applications.

Characteristics

- + Excellent sensitivity & receptor multi-compatibility
- + Great printing quality at high speeds
- + Very good sharpness of 90° barcodes
- + Very high resistance to smudge

Substrates

- Vellum
- Synthetics polyester
- Uncoated paper
- Packaging films

Applications

- Flexible packaging
- Frozen food packaging
- Retail
- Laboratory
- Storage
- Shipping
- Distribution label
- Bag of parts / products
- Tags
- Crates
- Signage & logos
- Tyre

Storage: Keep away from light. Temperature 5-35°C (40-95°F). Humidity 20 - 80%.

Technical specifications

Carrier	4.5µm
Color	Black
Ink melting point	80°C (176°F)
Blackness	2,2 ODR
